

YES-EU 360 kW · 2 guns

OVERVIEW

Charging networks demand faster turnaround times and better user engagement; the YES-EU 360 kW · 2 guns Public DC Charger is our most powerful public station. Designed specifically for high-traffic public locations, this 360 kW station combines immense energy delivery with a premium 32-inch digital interface and integrated contactless payment, making it our flagship charger for modern municipalities and commercial operators.

SPECIFICATIONS

Charging power

360 kW (500 A max), dynamic dual-gun

Single-vehicle peak

up to 270 kW to one vehicle

Output voltage range

200-1000 Vdc

Supply voltage

400 Vac

Max input current

633 A

Charging standard

IEC 61851-1 / -23

Connectors

2 x CCS2 · 5 / 7 m

Display

32" FullHD interactive

Payment / access

Payment-terminal ready · RFID

Communication

4G · Ethernet

Smart control

OCPP 1.6J

Operating temp

-30 degC to +50 degC

Protection

IP54

Dimensions (WxDxH)

900 x 800 x 2135 mm

Weight

650 kg
